

CARTIER IRON

CORPORATION

CANADIAN IRON ORE & GOLD EXPLORER AND DEVELOPER

Cartier Iron Corporation is exploring the Big Easy low sulphidation epithermal gold-silver property in the Avalon zone of Eastern Newfoundland and has a portfolio of highly prospective iron-rich mineral concessions in the northern and southern Labrador Trough, Canada's premier iron ore mining district.

BIG EASY PROPERTY

- Big Easy property expanded to 369 claims covering 92.3 km², 2 hours from St. John's, Nfld
- Historic diamond drilling of 31 holes totalling 6,497 m has outlined an extensive mineralized zone ~ 300-400 m wide that has a prospective strike length of 5+ km
- Significant historic drill results include 6.05 g Au/t and 174 g Ag/t over 1.5 m, 7.65 g Au/t over 1.0 m, 0.80 g Au/t over 11.25 m, 1.30 g Au/t over 8.7 m, and 3.54 g Au/t and 511 g Ag/t over 2.0 m

GAGNON HOLDINGS (141 claims/75 km²)

- Inferred Mineral Resource of 531 MT grading 33% FeT (Total Iron) delineated to date at the Lac Penguin Project
- Additional exploration target potential* at Lac Penguin Project estimated to be 700-900 MT of 27-31% FeT
- Metallurgical tests generated high-quality, low deleterious element, low silica (<4.5%) concentrate grading 64.2% – 66.6% iron, from composite core samples

BIG EASY PROPERTY – GOLD

1 EXPLORATION OPPORTUNITY

- Opportunity to **earn into a 100% ownership interest** in the Big Easy gold project

GAGNON HOLDINGS – IRON ORE

1 IDEAL LOCATION

- Proximal to **several iron ore mines**
- **Favourable tax environment**, politically stable
- The "Trough" hosts **over 1,500 km of iron formation** – source of Canada's iron ore

2 PROSPECTIVE GEOLOGY

- Northern extension of the 275 km-long Burin Peninsula, **an extensive belt of epithermal gold-silver mineralization**
- Geological setting has similarities to **Haile Mine** in South Carolina

2 EXCELLENT INFRASTRUCTURE

- Connection to **low-cost power**
- Immediate access to **rail and port infrastructure**

3 PLANNED PROGRAM

- Winter 2018 Induced Polarization/Resistivity Survey outlined a 4 km long chargeability anomaly. **Drilling is in progress to test the major anomalies**

3 HIGH-QUALITY PRODUCT

64.2% – 66.6% FeT with <4.5% SiO₂

- Low deleterious element content
- Coarse-grained
- Easy to process

* The "exploration-target potential" is not a Mineral Resource. There is insufficient work completed to estimate the quantity and grade or quality of the exploration target on the basis of geological evidence and sampling. There is no guarantee that further exploration will define additional mineral resources from any portion of the exploration target potential.

LOCATION ADVANTAGES

- In very favourable mining jurisdiction of Newfoundland
- 2 hours from St. John's and 20 minutes from Clarenville
- 5 km off Trans-Canada Highway and readily accessible by road
- Power line at northern end of the Big Easy zone
- Property covers potential 17 km strike length

FAVOURABLE OPERATING ENVIRONMENT

- Established iron ore mining district
- Favourable tax environment (40% tax rebate on exploration expenditures)
- Quebec's Plan Nord: \$Billions to invest in Northern Quebec for various projects, including infrastructure development; rail feasibility study is underway
- Skilled-labour work force

FAVOURABLE GEOLOGICAL SETTING

- Extensive low sulphidation epithermal gold-silver system in Neoproterozoic epiclastic sediments
- Similar geological setting to the Haile Mine in South Carolina
- Two major showings identified – Big Easy and ET Zone, 3.5 km apart along strike
- Recently completed IP survey outlined a 4+ km long chargeability anomaly marking major epithermal system
- Drill testing of major chargeability anomalies in progress with results pending

COMPETITIVE ADVANTAGE

- Champion Iron Limited (TSX: CIA) subsidiary is both Cartier's largest shareholder and its joint venture partner in the Gagnon Holdings
- A Champion Iron subsidiary acquired the formerly producing Bloom Lake Mine and related rail assets, along with the Quinto Mining Corporation mineral claims in April, 2016
- Champion Iron raised approximately \$300 million and fully funded the re-start of operations at Bloom Lake in Q1 2018. Champion Iron reported strong operational and financial results for quarter end June 30, 2018, earning \$20.7 million from \$150.7 million in revenue during ramp-up.

SHARE DATA as of December 13, 2018**CSE: CFE | WKN: A1KB3F**

Total Shares Issued and Outstanding	57.5 M
Options Outstanding (\$0.10 strike price)	3.2 M
Warrants Outstanding (\$0.12-\$0.25 strike price)	12.8 M
Big Easy Property Share Issue Commitments	1.5 M
Fully Diluted (including 2.0 M for Big Easy)	75.0 M
Price (Dec. 13, 2018)	\$0.09
Market Capitalization (Dec. 13, 2018)	\$5.8M
